

Nettenergy and Universum Invenio collaborate in the USA and Ukraine

Jan 1st 2017

It is with pleasure and great pride that Universum Invenio Ltd can inform that it has signed an agreement with Nettenergy BV., The Netherlands to confirm the close collaboration both companies will undertake in the field of biomass based energy solutions in Ukraine and the Pacific Northwest of the United States of America starting from January 2017.

Nettenergy BV is a pioneer in mobile biomass to liquid biofuels conversion technologies and equipment design and construction and Universum Invenio LTD is a value chain and project development company, which enables many projects in this field.

Both companies are confident that this collaboration will bring a whole new dimension on how to tackle biomass conversion in an effective and ecological, but at the same time profitable way.

"We have been working for several years and as soon as we started the conversations to reach a formal agreement it became clear very quickly that the idea to join forces was the best possible option, as each company can perfectly add value to the other, and bring in mutual benefits and very sound solutions for the market. We are honored to work together with Nettenergy BV, and we will do our best to make the business succeed", said Universum's CEO **Mr Victor Stern**.

Nettenergy's CEO, **Mr Rob Vasbinder** stated " I am very pleased to announce this joint effort, as it is exactly what we both were looking for in the right place at the right time; the expansion of our ground breaking technology will become more and more important and we foresee a great future"

We will keep you informed about all new developments as they occur.
